

PharmOutcomes Chlamydia Treatment Service – Quick Guide

When you receive a patient referral from the Chlamydia Screening Office it will appear at the top of your services screen:

The screenshot shows the 'Provide Services' page with a navigation bar (Home, Services, Assessments, Reports, Claims, Admin, Help) and a 'Provision List Options' section with a checked option 'Show patient identifiable details'. Below is a table of referrals:

Received Referrals	Service (stage)	Identifiers	User	Status
2019-06-17	Chlamydia Treatment - Index Patients		[Refused]	Pending Referral Referred to you awaiting follow-up action
2016-12-19	Chlamydia Treatment - Index patients	FC	[Refused]	Pending Referral Referred to you awaiting follow-up action
2018-12-15	Chlamydia Treatment - Index patients	PP	[Refused]	Pending Referral Referred to you awaiting follow-up action

Click on the service name as shown above. Enter your name into the practitioner name field:

Enrolment Requirements

The commissioner requires that the individual delivering this service meets certain criteria. Enter either your **name** or **registration number** in the box below and select from the list that appears.

Practitioner Name

If you have not yet completed the enrolment, select 'new practitioner' and follow the instructions to enrol for the service. Once you have enrolled your name will appear for selection in this box.

You will now see the patient and referral details.

Acceptance and completion of referred service

This referral has been made to your organisation at the request of a patient.

If you are unable to complete the referral, you can reject it, but please state the reason for rejection in the Notes box below.

If you can accept the referral but cannot complete the associated actions immediately, click on the accept button to acknowledge receipt of the referral. You can make relevant notes in the Notes box.

Complete now **Accept** **Return (unable to complete)**

Referral History

Referred to Test Pharmacy (Suffolk) by Test referral provider (Suffolk)
2019-06-17 14:49:04

If you are unable to complete the referral, enter a reason into the text box and click 'return'. Click 'accept' to acknowledge the referral to complete later. Click 'complete now' to record the patient consultation.

Complete the fields that appear to record the consultation and treatment. At the end of the form you will be asked to record whether a contact patient is present. If yes, you will need to note down or print the PharmOutcomes Index Patient ID as you will need it to complete the contact patient treatment form.

Contact patients

Is contact present? Yes No

Contact patient must also receive treatment, use the 'contact patients' service once you have completed this form

Please make sure you note down or print the Index patient ID when you save this form as you will need it to complete the contact patient treatment form

When you save the form, a green box will appear with the link to print the ID:

✓ • Chlamydia Treatment - Index Patients provision updated with the reference: FBJHJMY

• The following system generated provision report letters are available

- [Basic Provision Record](#)
- [ID printout](#)

Click here to print.

You will need this number to record treatment for any contact patients:

Index patient PharmOutcomes provision ID FBJHJMY

To record treatment for **contact patients**, click on the 'Chlamydia Treatment – Contact Patients' form on the left hand side of your service screen. Enter the Index patient PharmOutcomes provision ID from the printout:
